

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

March 8, 1999

LB 113A, 446A

much as 50 or 60 thousand dollars and we assumed that, but we got lucky somehow here and it is only going to cost about 7,500, and part of that will go away the first year, then there will be an 1,800 dollar annual licensing fee, which is mandatory. It is just the dollars that it takes to carry out this program. I think it's a reasonable amount. No needed help, we thought to start with we would have to have some additional help, that is not required. They are going to absorb that in the department so with this one I think we lucked out here. So with that, I'd just close and like to have the money appropriated for 113. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator Cudaback. Discussion on the advancement of LB 113A. Senator Cudaback to close. Senator Cudaback waives closing. The motion before us is the advancement of LB 113A. Those in favor vote aye, those opposed nay. Have you all voted? Please record.

CLERK: 26 ayes, 0 nays, Mr. President, on the advancement of LB 113A.

PRESIDENT MAURSTAD: Thank you, Mr. Clerk. LB 113A is advanced. Mr. Clerk, LB 446A.

CLERK: (LB) 446A by Senator Bromm. (Read title.)

PRESIDENT MAURSTAD: Senator Tyson, are you authorized to handle this for Senator Bromm?

SENATOR TYSON: Mr. President, yes, I am. Thank you. Members of the body, I don't know what more I can say about LB 446A (sic) that was passed here sometime ago. It was given, I think, a very thorough exposition at that time. This is an A bill for \$608,000 to fund a two-year study during which time the design would be made for the 800 megahertz statewide radio system, and this is a necessary expense before we can determine exactly what it is that the overall project will cost. And I ask your consideration and your vote. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator. For discussion on the advancement of LB 446A, Senator Wehrbein.
